

March 12, 1931.

Mr. Louie Galloway, Secy.,  
Uintah Executive Committee,  
Roosevelt, Utah.

Dear Sir:

RE: UINTAH DIST.

I have your letter of March 11 advising me of a meeting of the Executive Committee of March 14.

While I do not believe that anything final can be accomplished until negotiations with representative of the Indian Irrigation Service have been had it might be just as well for the Executive Committee to consider whom they would recommend for water commissioner in case matters work out favorably and also compensation he shall receive and other matters which might be considered provided for by Chapter 100, Laws of Utah, 1925.

The telegram from Representative Colton is not clear as to a trip to the Basin of the Representative of the Indian Irrigation Service but I would assume that he would make such visit before returning to Washington.

Yours very truly,

State Engineer.
